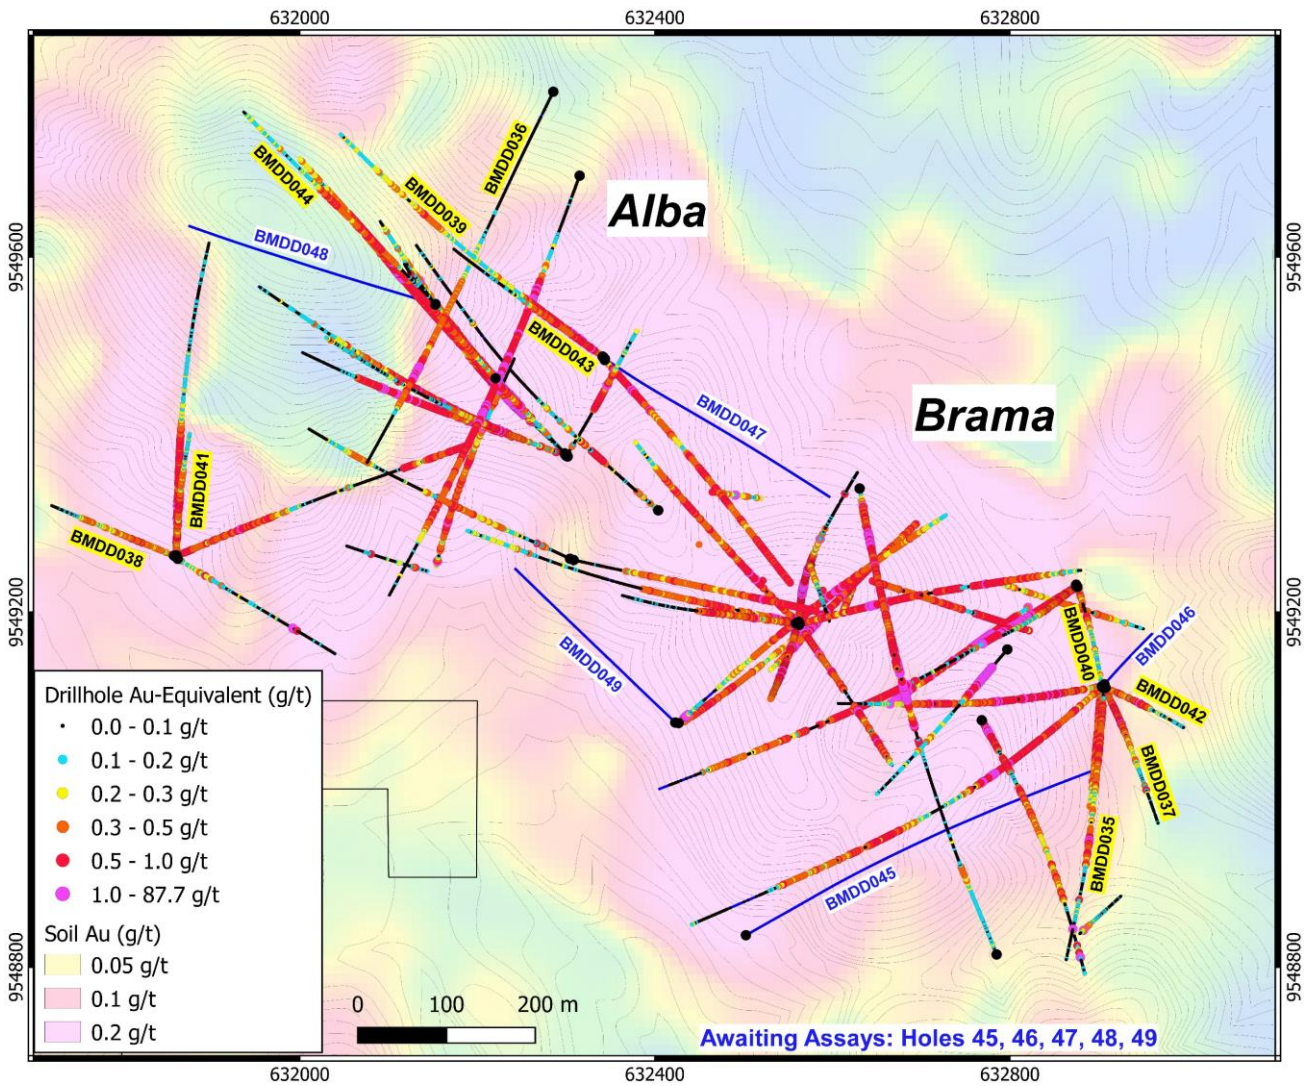

Figure 1: Brama-Alba drill status plan showing the status of drilling on backdrop of gold-in-soil results. Holes from this release are highlighted in yellow.

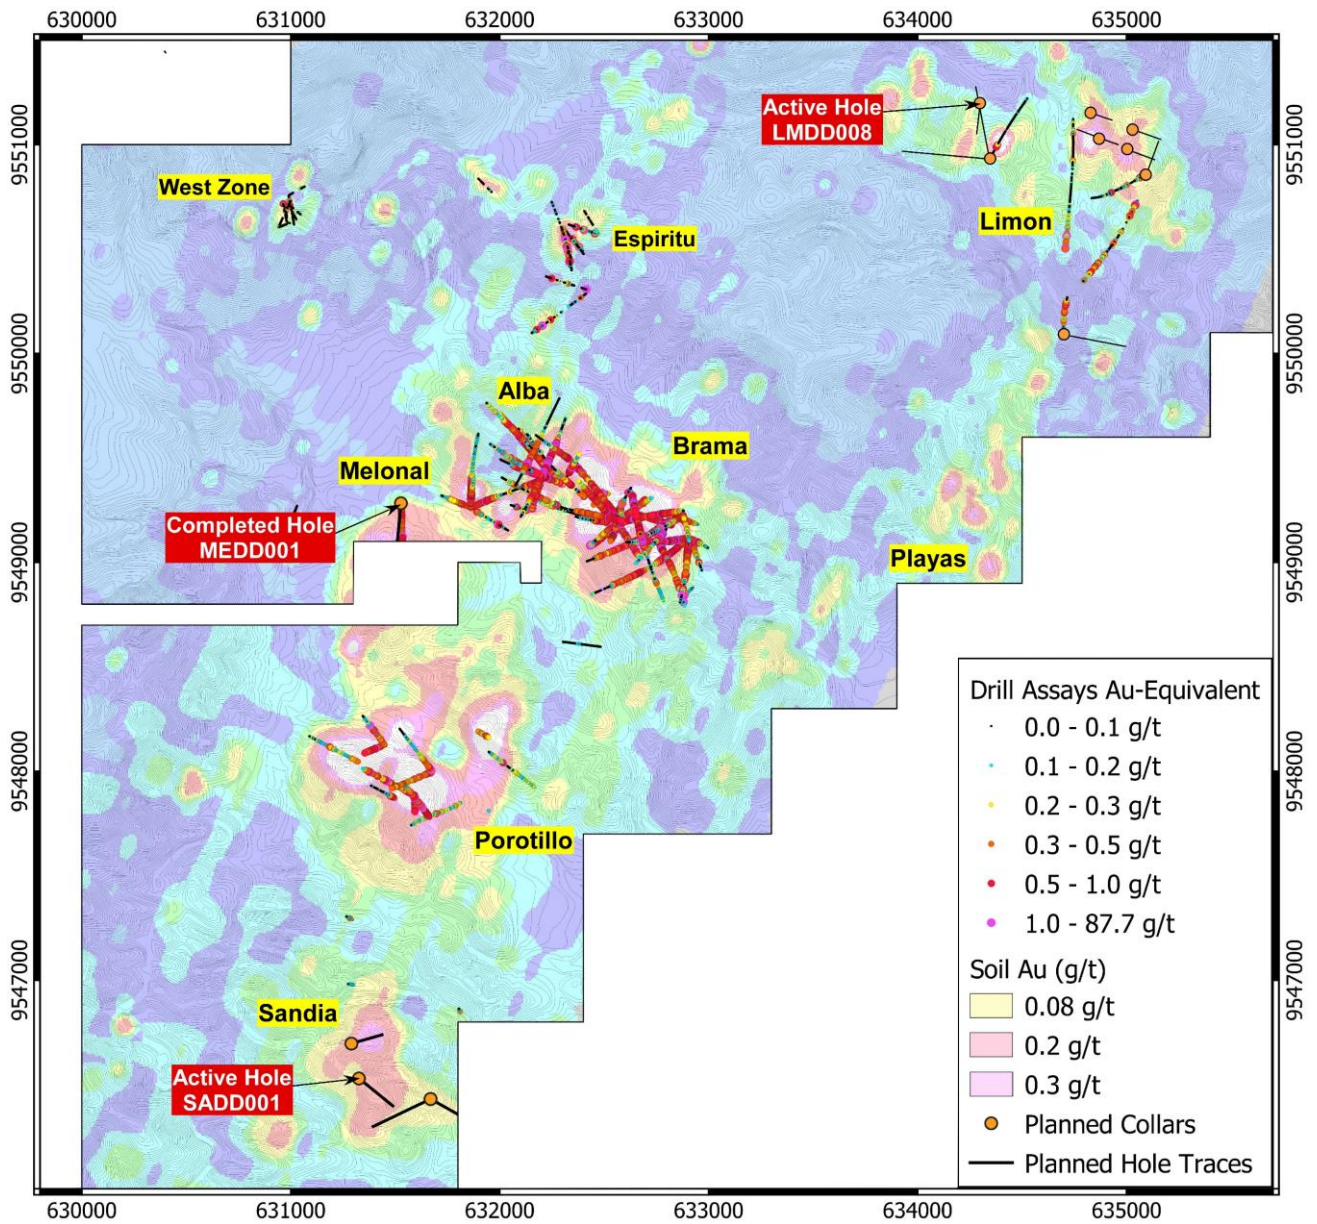

Figure 2: Melonal, Alba-Brama, Playas, Sandia, Porotillo and Limon porphyry systems and their gold-in-soil signatures highlighting the potential scale increase to be delivered with more drilling at Bramaderos across several porphyry centres. Drilling is now underway at Sandia and Limon, and one hole has just been completed at Melonal.

Table 2: Brama drill hole location details for BMDD035 - 44

Drill Hole Number	Easting_ PSAD56	Northing_ PSAD56	RL (m)	Dip (degrees)	Azimuth (PSAD56 Grid) (degrees)	EOH (m)	Target Area
BMDD035	632902	9549118	807	-65	182	689.18	Brama
BMDD036	632288	9549791	923	-30	204	530.17	Alba
